Subject: Kreiner Legislation

To whom it may concern: Mothers Against Drunk Driving (MADD) has been made aware of the House Judiciary Committee's meeting re: Kreiner Legislation. It is our understanding that because of the Kreiner decision, the families of those killed or injured by a drunk driver are no longer able to pursue compensation for their injuries. This - of course - is unacceptable!

Your committee members need only exchange places with the families of those innocent teens who were killed in Roseville on March 16. What if they were your children? Think of that when you vote to "fix" this piece of legislation. Drunk drivers keep driving drunk because they can and because we let them. We need to do everything we can to prevent such tragedy from ever happening again and to allow the victimized families to pursue compensation.

Reps. Meadows (C), Lipton (Maj. VC), Lisa Brown, Constan, Corriveau, Coulouris, Kandreas, Cook Scott, Warren, Schuitmaker (Min. VC), Amash, Haveman, Rick Jones, Kowall, Rocca.

MADD is watching. Please do the life-saving right thing!

Regards,

Richard Rondeau
